

Call Analysis

Jeffrey Waring

April 14, 2017

Who calls me more: my wife or Kris?

Time to answer this important question: does my wife call me more or Kris? To answer, I logged all incoming calls for 18 months, using this recipe from IFTTT <https://ifttt.com/applets/161618p-automatically-log-every-call-you-make-on-your-android-phone-to-a-google-spreadsheet>.

First, I downloaded the .csv file, and added a header and slightly modified the date stamp column.

```
“{r echo = TRUE
```

```
setwd("C:/Users/Jeffrey.Waring/R projects") df <- read.csv("Calls.csv",header=TRUE) ““
```

Including Plots

You can also embed plots, for example:

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.
